

PROCEEDINGS OF THE IEEE

VOLUME 92, NUMBER 5

MAY 2004

COMPUTATIONAL INTELLIGENCE METHODS FOR RULE-BASED DATA UNDERSTANDING

Interdigital Sensors & Transducers

Engineering In The Biological Substrate:
Information Processing In Genetic Circuits

and

Special Classic Paper Reprint:

“Some Laws Concerning the Distribution of Electric Currents in Volume
Conductors with Applications to Experiments on Animal Electricity”

by Hermann von Helmholtz

plus

Scanning Our Past:

Electrical Engineering Hall of Fame: Frank J. Sprague
